Construction Inspection List

1. All work shall be completed in strict compliance with the approved Building Permit Application, plans, materials, and specifications, the New York State Uniform Fire Prevention and Building Code, and all other applicable laws, rules, and regulations.
2. The Building Permit shall be deemed invalid if work has not commenced Within one year of the date of issuance.
3. All electrical work shall be inspected by a New York State certified Electrical Inspection Agency and a copy of the "Certificate of Electrical Compliance" shall be submitted to the Building Inspector prior to the issuance of a "Certificate of Occupancy." It shall be the responsibility of the owner/applicant to ensure compliance with this requirement.
4. No building or structure shall be occupied or used in any way until a final inspection has been conducted by the Building Inspector, and a Certificate of Occupancy has been issued.

Owner/Applicant

Date

NOTICE: Do not Proceed beyond these points of construction until inspected and signed below by the Building Inspector. Telephone 326-4401 at least 24 hours prior to the requested Inspection.

Final Inspection	_____	_____

No person, firm, corporation, association or other organization shall commence the erection, construction, enlargement, alteration, improvement, relocation, removal or demolition of any building or structure, except a nonresidential farm building or structure, without having applied for and obtained a permit from the Code Enforcement Officer.

New York State law requires that all plans, drawing and specifications relating to the construction or alteration of buildings or structures which must be filed with a local building official must be stamped with the seal of an architect or professional engineer (Article 147, Section 7307).

The applicant may request that the requirement of plans and specifications with a stamp and signature, be waived where the work to be done involves minor alterations or where such plans and specifications are otherwise unnecessary.

The applicant shall notify the Code Enforcement Officer of any changes in the information contained in the application during the period for which the permit is in effect. A permit shall be issued when the application has been determined to be complete and when the proposed work is determined to conform to the requirements of the Uniform Code.

A permit issued pursuant to these requirements shall be prominently displayed on the property or premises to which it pertains.

Work for which a permit has been issued under these requirements shall be inspected at appropriate stages of the project. Work shall be inspected prior to enclosing or covering any portion thereof and upon completion of each stage of construction or demolition, including but not limited to building location, site preparation, excavation, foundation, framing, superstructure, electrical, plumbing, heating, ventilating and air conditioning. It shall be the responsibility of the owner, applicant, or his agent to inform the Code Enforcement Officer that the work is ready for inspection and to schedule such inspection.

A building permit issued shall expire one year from the date of issuance or upon the issuance of a certificate of occupancy. A demolition permit issued shall expire six months from the date of issuance or upon the issuance of a certificate of completion of the permitted work, whichever occurs first. A building permit may, upon written request, be renewed for successive one-year periods. A demolition permit may, upon written request, be renewed for successive six-month periods. Upon completion of all projects for which a building or demolition permit has been issued, the property owner shall obtain a certificate of occupancy or completion.

I have read and understand my rights and responsibilities as applicant of the enclosed building permit application.
